Total (with melons)	419.8	418.7	423.0	408.0	---	---	---

-- = Not available. p = preliminary. r = revised.

1/ All production for processing broccoli and cauliflower is for freezing. 2/ On-cob basis. 3/ In-shell basis. 4/ Includes domestically-produced

hothouse tomatoes after 1996 (all years include imported hothouse tomatoes). 5/ Includes artichokes, Brussels sprouts, eggplant,

endive/escarole, garlic, radishes, green limas, squash, & spinach. After 2000 includes okra, pumpkins, kale, collards, turnip greens, and

mustard greens. 6/ Includes beets, green limas (1992-2014), spinach, and miscellaneous imports (1990-2014). 7/ Includes green limas,

spinach, and miscellaneous freezing vegetables. 8/ Fresh, canning, and freezing data do not sum to the total because onions for dehydrating

are included in the total. 9/ Production from new areas in the upper Midwest added in 1998. A portion of this is used for animal feed.

10/ Includes garbanzo beans (chickpeas). 10/ Beginning in 2012, data coverage for melons is included in the Fruit and Tree Nuts Yearbook.
